

Early Journal Content on JSTOR, Free to Anyone in the World

This article is one of nearly 500,000 scholarly works digitized and made freely available to everyone in the world by JSTOR.

Known as the Early Journal Content, this set of works include research articles, news, letters, and other writings published in more than 200 of the oldest leading academic journals. The works date from the mid-seventeenth to the early twentieth centuries.

We encourage people to read and share the Early Journal Content openly and to tell others that this resource exists. People may post this content online or redistribute in any way for non-commercial purposes.

A WEEKLY JOURNAL DEVOTED TO THE ADVANCEMENT OF SCIENCE, PUBLISHING THE
OFFICIAL NOTICES AND PROCEEDINGS OF THE AMERICAN ASSOCIATION
FOR THE ADVANCEMENT OF SCIENCE.

FRIDAY, NOVEMBER 16, 1906.

CONTENTS.

<i>American Association for the Advancement of Science:—</i>	
<i>Section B—Physics: PROFESSOR DAYTON C. MILLER</i>	609
<i>The Scientific Investigation of the Psychical Faculties or Processes in the Higher Animals: PROFESSOR IVAN P. PAVLOV.....</i>	618
<i>Scientific Books:—</i>	
<i>Erdmann's Lehrbuch der anorganischen Chemie: E. R. Vermehrung und Sexualität bei den Pflanzen: DR. ERNST A. BESSEY</i>	619
<i>Societies and Academies:—</i>	
<i>The American Philosophical Society.....</i>	620
<i>Discussion and Correspondence:—</i>	
<i>Some Points in Teaching Crystallography: PROFESSOR AUSTIN F. ROGERS.....</i>	620
<i>Special Articles:—</i>	
<i>Is there Determinate Variation?: PROFESSOR VERNON L. KELLOGG. Discovery of an Early Type of Man in Nebraska: PROFESSORS E. H. BARBOUR and H. B. WARD</i>	621
<i>The Second Decennial of the Botanical Seminar of the University of Nebraska..</i>	629
<i>Physiological Economy in Nutrition.....</i>	631
<i>Field Work of the Science Division of the State of New York.....</i>	633
<i>Intercollegiate Geological Excursion.....</i>	634
<i>Local Arrangements for the New York Meeting of the American Association for the Advancement of Science and the Affiliated Scientific Societies</i>	635
<i>Scientific Notes and News.....</i>	636
<i>University and Educational News.....</i>	639

AMERICAN ASSOCIATION FOR THE ADVANCEMENT OF SCIENCE.

SECTION B—PHYSICS.

At the summer meeting of the American Association for the Advancement of Science, held in Ithaca, N. Y., from June 28 to July 3, 1906, Section B met in joint sessions with the American Physical Society. The section was, in an especial sense, the guest of the department of physics of Cornell University, for on this occasion there occurred the formal dedication of the new Rockefeller Hall of Physics. At the dedication exercises there were addresses by President Schurman, Professor E. L. Nichols, Dr. Elihu Thomson, Professor W. H. Welch and by Professor W. A. Anthony (read by Professor Merritt, in Professor Anthony's absence). After the addresses, the magnificent laboratory was opened for inspection.

On account of the interest in the new laboratory, no doubt, the attendance at the regular sessions was large, there being about seventy present. The president of the American Physical Society being absent, the vice-president of Section B, Professor W. C. Sabine, presided at all the sessions. A very interesting joint program of twenty-seven papers was presented. Abstracts and titles are given below. Besides the features already mentioned, several receptions and excursions, and the general hospitality of Cornell University added greatly to the enjoyment of the meetings. This summer meeting was very successful.
